

Zahara® K74

Chemistry-free Waterless Plate for 74 Karat Presses

- Drop-in compatibility with 74 Karat presses
- Cassette-loaded for automated on-press imaging
- Excellent compatibility with UV ink
- Solvent and scratch resistant
- Excellent ink roll-up and solid densities
- 300 lpi screening

The Right Plate for Your 74 Karat

The Zahara K74 plate is specially designed for use on KBA Karat 74 presses. It is designed with compatible cassettes to fit perfectly into your existing workflow. No press adjustments are needed.

Robust Performance. Superior Results.

Benefits of Zahara K74 plates are apparent on press. Imaging produces sharp, high resolution images up to 300 line screen. You'll achieve excellent ink roll-up, solid ink densities, and well defined, hard-edged halftone dots that meet the highest quality standards.

ZAHARA® K74

CHEMISTRY-FREE WATERLESS PLATE FOR 74 KARAT

ZAHARA[®] K74

CHEMISTRY-FREE WATERLESS PLATE FOR 74 KARAT

Better for Business. Better for the Environment.

As a waterless printer and 74 Karat operator, you understand that green solutions provide value by differentiating your business and appealing to environment and quality conscious print buyers. Verico Technology manufactures the only true chemistry-free offset plates for waterless press platforms—our Zahara family of products. Naturally, we created a Zahara plate for 74 Karat users that would deliver enhanced imaging and printing performance for their presses.

Zahara K74 Digital Offset Plate Specifications
